

OUR MISSION:

"AS LEADERS IN THE FRP INDUSTRY, WE ARE DEDICATED TO CUSTOMER SERVICE AND SUPPORT OF ALL MARKET SECTORS THROUGH CONTINUOUS ENGINEERING ADVANCEMENTS AND PRODUCT DEVELOPMENT. WE STRIVE TO PROMOTE AND MAINTAIN A SAFE, EFFICIENT AND COHESIVE WORK ENVIRONMENT THAT IS GOVERNED BY OUR CORE VALUES TO ENSURE THE BEST POSSIBLE OUTCOME FOR ALL."

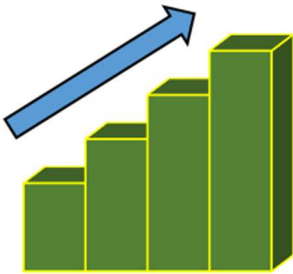

FIBERGLASS STRUCTURES AND FENCING

AIMS is a world leader in the fabrication and installation of fiberglass structural systems. As a turn-key fiberglass contractor, we design, fabricate and install fiberglass structural systems. The AIMS fabrication shop consists of 18,000 ft² of floor space with expansion capabilities to double in size to 36,000 ft². Our experienced fabricators take engineered drawings and produce a fabricated product that is completely customized to meet the customer's requirements. As a full-service company, AIMS provides comprehensive field service, installation and repair.

Decorative FRP Fence: New York substation

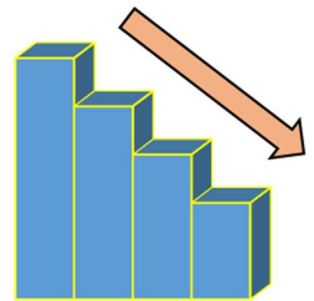

- 100% electrically non-conductive
- 100% corrosion resistant
- Material color throughout product
- Can be manufactured in many colors
- Does not spark when impacted by steel
- 3 x the lifespan of galvanized steel
- UV stable
- Weight is 2/3 lighter than
- Higher return on investment than steel
